## UMCDF Operations

- Safety is number one at UMCDF: employees have worked 537 days since the last lost-workday accident (Oct. 22, 2004).
- Munitions and chemical agent processing were not conducted throughout the week, other than April 6, due to fire damper testing and a jam in the Deactivation Furnace System (DFS) Heated Discharge Conveyor (HDC). (See photo below.)
- Repairs are being made to the HDC chain and rocket processing will resume once they are complete.

**Leading the  
Way to a Safer  
Future**

The Umatilla Chemical Agent Disposal Facility is safely destroying the stockpile of weapons stored at the Umatilla Chemical Depot while ensuring maximum protection for our workers, our community and our environment.
